Dear Hiring Manager,

I am interested in applying for the position of Front End Developer. I have over **6 years** of experience as a Front-End Developer which has sharpened my React.js, Redux, ES6, Typescript, Jest, JavaScript, CSS3 and HTML5 skills, as well as my investigative and analytical skills.

I have designed, developed, and launched customized, highly responsive web applications using advanced technologies. Collaborated with Back End Developers to create a stellar finished product. Please consider the following highlights:

- Designed, developed a well-tested User Interfaces using, React, Redux, HTML5, CSS/Bootstrap and JavaScript.
- Collaborated with stakeholders to understand the business points.
- Ability to thrive in a fast-paced production deadline-driven environment in Agile Methodology.
- My passion over **JavaScript** makes it easy to troubleshoot complex problems and apply latest best practices. Extensively used Atlassian Suite (Jira / Confluence) and GIT for version control.

My permit to be considered for employment in Germany would be a **Job Seeker Visa** - (In process), offering the possibility to relocate to the country. I shall be **available** in **Germany** at the earliest.

I am also pursuing the German language in parallel, to be inclusive of the country official and social construct.

I have attached a copy of my resume for your understanding, please let me know If you believe I would be a good fit for your organization.

Sincerely,
Niranjan Sharma Subramanyam
